Course: “RPA Foundation Program in Finance & Accounting” in association with Automation Anywhere

The “RPA Foundation Program in Finance & Accounting in association with Automation Anywhere” is an e-Learning program supplemented with “Build a Bot hands on live online workshop”. The program has “RPA Introduction” eLearning module from Mindmap & “Business Analyst” learning trail from Automation Anywhere University to get the learners familiar with the concepts of Robotic Process Automation. Along with it, there is an introduction to the Finance and Accounting world and how can the RPA platform be leveraged to automate several processes around financial operations. To create excitement on automation “Build a Bot hands on live online workshop” has been made part of the learning journey. The objective is to provide a learning experience of how automation enables processes and demystify the RPA technology.

Course structure (13 hours)

##	Module Name
1	<p>Error! Reference source not found.</p> <p>1.1 MindMap - Evolution of RPA and its capabilities (3 hours)</p> <p>1.2 Automation Anywhere - Business Analyst Trail (4 hours)</p>
2	MindMap – Why does Finance need RPA (3 hours)
3	MindMap - Built a Bot workshop (3 hours)

1 RPA Foundation Skills

1.1 RPA Introduction

Types of Skills/Capabilities to be built	Learning Modules	
Learning components	Evolution of RPA and its capabilities	Evolution of RPA
		RPA Bot example
		Why RPA is important

		Changing the perspective on RPA
		RPA Trend & Market
Duration	3 hrs	

1.2 Business Analyst

This self-learning module from Automation Anywhere University teaches the learners how to analyze business processes and approach to introduce RPA into an organization. This module provides an understanding of dependencies and risk to build out a valid business case for automation.

Types of Skills / Capabilities to be built	Learning Modules	
Learning components	Business Analyst	Build a bot using Automation Anywhere's Digital Workforce
		Describe the five stages of Process Maturity Model or PMM to finalize candidates for automation and the role of Business Analysts in the process
		Describe how to automate businesses with proper deployment process
Time	4 hours	

2. Leveraging RPA in Finance & Accounting

Along with the fundamental RPA training, learners will be given an exposure to the Finance & Accounting domain as follows

Types of Skills/Capabilities to be built	F&A Foundation	
Learning	RPA in F&A	How RPA is transforming F&A Processes

components	Understand the F&A Processes	Accounting Lifecycle Record to Report Process Procure to Pay Process Order to Cash Process
Time	3 hours	

3. Build a Bot hands on live online workshop

This workshop is intended to provide an experiential learning by using F&A and other real life use cases to use Automation Anywhere to automate various processes. The module enables the learners to experience hands on technology and demystify it and encourage them to engage on deeper expertise programs like RPA Developer Professional.

	Learning Modules	
Types of Skills/Capabilities to be built	F&A Foundation	
Learning components	Build a Bot (Live Online Workshop)	Make your first Bot using Automation Anywhere using F&A and other real life User cases
Time	3 hours	

Outcomes and Benefits

This certification course is ideal for anyone with an interest in learning automation in the F&A domain. Learners right from Finance & Accounting professionals, Team Leads, Finance Managers, Finance Controllers, Chartered Accountants, Product Managers, Business Analysts, and also the college graduates can leverage a great deal from this introductory course.

The course provides an exposure to RPA concepts and cases to foster an understanding of how RPA is used in automating F&A business processes. This is achieved through a comprehensive curriculum and access to RPA technologies which aids in developing a skill set that is in demand.

The course also serves as a springboard to learners who look to further explore and learn Robotic Process Automation in F&A.

Program Accolades:

1. **Business Analyst Badge** from Automation Anywhere
2. Mindmap Certificate - **“RPA Foundation program in Finance & Accounting”** in association with Automation Anywhere
